Contents Volume 98, 2000

Discussion

On the role of Shannon's entropy as a measure of heterogeneity
M.A. Martín and J.-M. Rey 1

Pedodiversity and scaling laws: sharing Martín and Rey's opinion on the role of the Shannon index as a measure of diversity
J.J. Ibáñez and S. De Alba 5

Research Papers

Inorganic nitrogen dynamics in fallows and maize on an Oxisol and Alfisol in the highlands of Kenya
A.E. Hartemink, R.J. Buresh, P.M. van Bodegom, A.R. Braun, B. Jama and B.H. Janssen 11

Designing sampling grids from imprecise information on soil variability, an approach based on the fuzzy kriging variance
R.M. Lark 35

Mineralogy of a soil chronosequence on andesitic lava in humid tropical Costa Rica
A. Nieuwenhuyse, P.S.J. Verburg and A.G. Jongmans 61

Fine-scale spatial variability of physical and biological soil properties in Kingston, Rhode Island
J.A. Amador, Y. Wang, M.C. Savin and J.H. Görres 83

A geostatistical approach to estimate probability of occurrence of *Tuber melanosporum* in relation to some soil properties
A. Castrignanò, P. Goovaerts, L. Lulli and G. Bragato 95

Derivatization and structural studies by spectroscopic methods of humic acids from Leonardite
G. Ricca, F. Severini, G. Di Silvestro, C.M. Yuan and F. Adani 115

Numerical experiments to simulate vertical vapor and liquid water transport in unsaturated non-rigid porous media
W. Salzmann, K. Bohne and M. Schmidt 127

Soil formation under two moss species in sandy materials of central British Columbia (Canada)
D.W. Carter and J.M. Arocena. 157

Composition and distribution of organic matter in physical fractions of a rehabilitated mine soil rich in lignite-derived carbon
C. Rumpel, I. Kögel-Knabner, H. Knicker and R.F. Hüttl 177
